Important Ordering Information...

To ensure your furniture ordering experience is as seamless as possible, please carefully read through the following important checklist...

01 Order early

Place your order as early as you can to avoid extended lead times during the summer months.

02 Check your order

Ensure you are ordering the correct dimensions and colours. Products are made to order so any returns or amendments after an order is confirmed may incur an extra charge. Sizes should also be checked to ensure that the correct size is ordered to suit the correct age group.

03 Contact details

Please supply contact name(s) and mobile phone numbers on all orders. This helps us book deliveries or to call the correct contact during school holidays.

04 Opening times

Please advise opening times if you are expecting a delivery within school holidays. These details will be used to install or deliver the goods on a convenient date.

05 Prepare for the delivery

Remember to keep hold of your old furniture until your new goods arrive, just in case any delays or issues occur. Ensure that there are staff available to receive the delivery as some courier policies are to deliver to the nearest undercover area so some items may need to be moved to the relevant part of the school.

06 Delivery

Some deliveries will be made by pallet via third party couriers within the pallet network and are curbside delivered. Please inform us before placing your order if this is an issue and we will discuss alternative transport options and any relevant costs. Please note, it is the customer's responsibility to remove or dispose of any packaging, including the wooden pallet itself.

07 Returns

Please note furniture is made to order and is therefore generally non-returnable if it has been supplied as per your order. Some suppliers may agree to collect and exchange an item but will usually charge a restocking fee. If it is necessary to return any furniture items then please contact our customer services team on 01527 878348 or email sales@forwardproducts.co.uk.

Notes to remember when ordering

- All classroom and office furniture is made to order so it is important to ensure that the correct size and type of furniture is ordered.
- Delivery times fluctuate throughout the year with lead times being extended during peak months (June-September).

Educational Furniture Height Guide

To help you purchase educational furniture in the correct heights for children, the following guide outlines recommend table and chair heights that comply with the British and European Standards (1729). As pupil heights can vary from cohort to cohort we recommend you measure their stature and popliteal heights (see below for an explanation on these terms) and then match these up to the below guide. If your priority is to match the heights of existing furniture, you will need to check these and specify them when ordering.

Standing & Working Heights

To help you purchase furniture that complies with the British and European Standards (1729), the following height guide indicates which fixed seat heights and table heights are suitable for the correct age and size. To ensure you purchase the most accurate height furniture correct in compliance with the standards, we recommend that you measure the stature and popliteal height. You can then match those measurements using the guide below.

For a visual guide to the different chair and table heights, please refer to the table below.

	SIZE MARK	AGE RANGE	POPLITEAL HEIGHT RANGE	STATURE RANGE	TABLE HEIGHT	CHAIR HEIGHT
1	NURSERY	3-4 years	250 - 280mm	930 - 1150mm	460mm	260mm
2	PRIMARY	4-6 years	280 - 315mm	1080 - 1210mm	530mm	310mm
3	PRIMARY	6-8 years	315 - 355mm	1190 - 1420mm	590mm	350mm
4	PRIMARY	8-11 years	355 - 405mm	1330 - 1590mm	640mm	380mm
5	SECONDARY	11-14 years	405 - 435mm	1460 - 1765mm	710mm	430mm
6	SECONDARY/ADULT	14 +	435 - 485mm	1590 - 1880mm	760mm	460mm

Standing & Working Heights

Popliteal Height

Popliteal height defines the correct seat height. The measurement is taken from the floor to the back of the knee when seated, with thighs horizontal and lower leg vertical with feet flat to the floor.

Stature

Stature is from floor to the top of the head.

Sitting Work Height

Sitting work height defines the correct table height. The measurement is determined by sitting elbow height, which is the distance from the floor to the underside of the elbow whilst sitting with the upper arm vertical and the lower arm horizontal.

Standing Work Height

Standing work height defines the correct standing table height. The measurement is determined by standing elbow height, which is the distance from the floor to the underside of the elbow of a standing person with the upper arm vertical and lower arm horizontal.

Linetta uses state of the art anti-bacterial fabric technology Aguaguard 365

- A safe anti-bacterial protection system for upholstery fabrics, effective against viruses including Covid-19. Whilst research indicates viruses and bacteria survive longer on hard surfaces, soft surfaces like textiles can provide a large hosting area and benefit their carryover.
- It is comprised of a patented and registered silver technology (small silver particles are potent antibacterial and antiviral agents) and a pending patent fatty vesicle technology that acts as a booster to the silver technology that physically destroys viruses.

AquaGuard365 is:

- Harmless to the skin and body and uses a minimum of active ingredients
- EU BPR (Biocidal Products Regulation) and EU REACH compliant.
- Carries Bluesign, EPA, Oekotex and ZDHC (Zero Discharge Of Hazardous Chemicals) approval and certification.
